

# COMPLIANCE AND SAFETY INFORMATION

Product Name: Hamster Mix

**IMPORTANT: PLEASE RETAIN THIS INFORMATION FOR FUTURE REFERENCE**

## Getting Started

For full set up and installation instructions please visit

<http://www.hamstermix.com/setup>

## WARNINGS

- This product shall only be connected to an external power supply rated at 5V dc, and a minimum current of 600-1800mA. Any external power supply used with any Hamster Mix product shall comply with relevant regulations and standards applicable in the country of intended use.
- This product should be operated in a well-ventilated environment and the case should not be covered.
- This product should be placed on a stable, flat, non-conductive surface in use and should not be contacted by conductive items.
- The connection of unapproved devices to the ESP32 pins may affect compliance or result in damage to the unit and invalidate the warranty.
- All peripherals used with any Hamster Mix device should comply with relevant standards for the country of use and be marked accordingly to ensure that safety and performance requirements are met.

## INSTRUCTIONS FOR SAFE USE

To avoid malfunction or damage to your Hamster Mix Device please observe the following:

- Do **not** expose it to water, moisture or place on a conductive surface whilst in operation.
- Do **not** expose it to heat from any source; the Raspberry Pi is designed for reliable operation at normal ambient room temperatures.
- Take care whilst handling to avoid mechanical or electrical damage to the printed circuit board and connectors.

## COMPLIANCE INFORMATION

Hamster Mix complies with the relevant provisions of the RoHS Directive for the European Union. In common with all Electrical and Electronic Equipment (EEE) any Hamster Mix equipment should not be disposed of as household waste.
